Capital: Volume Two

Karl Marx, Tom Griffith, Mark G. Spencer

Capital: Volume Two Karl Marx, Tom Griffith, Mark G. Spencer

Few writers have had a more demonstrable impact on the development of the modern world than has Karl Marx (1818-1883). Born in Trier into a middle-class Jewish family in 1818, by the time of his death in London in 1883, Marx claimed a growing international reputation.

Of central importance then and later was his book *Das Kapital*, or, as it is known to English readers, simply *Capital*. Volume One of *Capital* was published in Paris in 1867 and is available as a separate Wordsworth eBook. This was the only volume published during Marx's lifetime and the only to have come directly from his pen. Volume Two, which is contained in this eBook, was published in 1884, and was based on notes Marx left, but written by his friend and collaborator, Friedrich Engels (1820-1895).

Readers from the nineteenth century to the present have been captivated by the unmistakable power and urgency of this classic of world literature. Marx's critique of the capitalist system is rife with big themes: his theory of 'surplus value', his discussion of the exploitation of the working class, and his forecast of class conflict on a grand scale. Marx wrote with purpose. As he famously put it, 'Philosophers have previously tried to explain the world, our task is to change it.'
