What He Really Thinks : Insight into a Guy's Mind Michael Russo

A fun, must-have book giving an insight into the male mind which will help you understand how men think. Are you wasting your time on a deadbeat guy who won't commit? Is the guy you're dating playing you and the field at the same time? The main reason I wrote this book was for my female friends. I painfully watched them as they kept getting into relationships that I knew they were doomed from the start. hey, dating is tough enough as it is, understanding how men are will help. Written completely by a guy, this book provides an insight into how a guy thinks and covers the following: Where are all the good men? Do surveys really tell us what guys want? Can a guy and a girl just be friends? Does living together spell commitment? What men really want in bed? and much, much more.
