Microtectonics C.W. Passchier, R.A.J. Trouw

Based on the popular textbook of the same name, this CD contains the complete text of the book, serving as a guide to its structure, while also providing most of the figures in colour. In addition, numerous animations and videos of deformation processes and textures are added. It also contains an exercise section which may be enlarged, making the CD-ROM ideal for those who want to delve deeper into the subject. The multimedia components can equally be used by teachers for classes and courses.
