Have you ever had trouble remembering what a character looks like when you describe it while writing a book? Have you longed to have some kind of reference, but can't draw as well as you'd like? Have you wanted to make a drawing model for a comic book that looks exactly like your character so you can keep color, design and style consistent? Then this book is for you! As a comic book creator, I know what it feels like to have inconsistent character design over the course of several pages and how frustrating it is to have to start from scratch to assure consistency. It's aggravating, time consuming and above all a massive headache! It wastes everything, right down to your patience! Since deciding to create character dolls, I don't have to worry about consistency - I simply reference the doll. I know what you're thinking: I don't know how to sew, how can I make a doll? Well, I break down the instructions for making a very simplistic doll type, covering female and male doll anatomy and even include clothes. I go through all the basics, from supplies to finished doll. All you need is time and patience to end the inconsistent design or description headaches.
