Sword and Scalpel: A Doctor Looks Back on Vietnam Larry Rogers

A fascinating memoir detailing the life and experiences of Dr. Larry Rogers, who volunteered to serve as a medical doctor in Vietnam during the most intense phase of the fighting--the days and months leading up to and including the enemy's Tet Offensive, politically the decisive campaign of the war. Slogging through streams and jungle, he and his colleagues weathered not only fire fights and rocket attacks but scorpions and deadly snakes. Yet he experienced stunning medical triumphs, including returning life to a soldier left for dead in a makeshift morgue and resuscitating another by hastily jerry-rigging a defibrillator from an auxiliary generator and strips of radio-antenna wire. A riveting portrait of survival and healing during a time of war. **All profits from the sale of this book will be donated to the Wounded Warrior Project.**
