Net Zero Energy Design: A Guide for Commercial Architecture Thomas Hootman

Conveniently organized and packed with robust technical content and clear explanations of key principles

Written by an architect who is the director of sustainability at a global architecture firm, *Net Zero Energy Design* is a practical guide for architects and related construction professionals who want to design and build net zero energy commercial architecture. It offers no-nonsense strategies, step-by-step technical analysis, and valuable examples, in addition to developed case studies. With a focus on application in a variety of building types and scales, the book also develops a broad-based understanding of all the integrated principles involved in achieving net zero energy.

This book is an indispensable resource for anyone venturing into net zero energy design, construction, and operation, and it also serves as an excellent resource on a variety of sustainable design topics. Important features include:

- Organization based upon the commercial building delivery process
- Robust technical content for use in actual project applications
- Analysis examples that demonstrate key technical principles
- Plenty of design data for use as a valuable design resource
- Abundant and sophisticated information graphics and color illustrations and photographs
- A distinct design focus on the content that inspires adoption of principles into projects

From reader reviews:

Paul Butler:

Nowadays reading books be than want or need but also turn into a life style. This reading practice give you lot of advantages. Associate programs you got of course the knowledge the particular information inside the book which improve your knowledge and information. The info you get based on what kind of reserve you read, if you want send more knowledge just go with training books but if you want really feel happy read one having theme for entertaining like comic or novel. The actual Net Zero Energy Design: A Guide for Commercial Architecture is kind of guide which is giving the reader unpredictable experience.

Katie Jones:

The actual book Net Zero Energy Design: A Guide for Commercial Architecture will bring you to the new experience of reading a book. The author style to elucidate the idea is very unique. In case you try to find new book to study, this book very acceptable to you. The book Net Zero Energy Design: A Guide for Commercial Architecture is much recommended to you to study. You can also get the e-book from your official web site, so you can quickly to read the book.

Julie Moore:

People live in this new morning of lifestyle always attempt to and must have the spare time or they will get wide range of stress from both lifestyle and work. So , once we ask do people have extra time, we will say absolutely of course. People is human not a robot. Then we request again, what kind of activity do you have when the spare time coming to anyone of course your answer may unlimited right. Then do you ever try this one, reading guides. It can be your alternative in spending your spare time, the book you have read is actually Net Zero Energy Design: A Guide for Commercial Architecture.

Shawn Young:

As a university student exactly feel bored to reading. If their teacher requested them to go to the library or make summary for some guide, they are complained. Just minor students that has reading's soul or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that studying is not important, boring and also can't see colorful images on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Net Zero Energy Design: A Guide for Commercial Architecture can make you really feel more interested to read.
