Principles of Speech Coding

Tokunbo Ogunfunmi, Madihally Narasimha

Principles of Speech Coding Tokunbo Ogunfunmi, Madihally Narasimha

It is becoming increasingly apparent that all forms of communication—including voice—will be transmitted through packet-switched networks based on the Internet Protocol (IP). Therefore, the design of modern devices that rely on speech interfaces, such as cell phones and PDAs, requires a complete and up-to-date understanding of the basics of speech coding.

Outlines key signal processing algorithms used to mitigate impairments to speech quality in VoIP networks

Offering a detailed yet easily accessible introduction to the field, **Principles of Speech Coding** provides an in-depth examination of the underlying signal processing techniques used in speech coding. The authors present coding standards from various organizations, including the International Telecommunication Union (ITU). With a focus on applications such as Voice-over-IP telephony, this comprehensive text covers recent research findings on topics including:

- A general introduction to speech processing
- Digital signal processing concepts
- Sampling theory and related topics
- Principles of pulse code modulation (PCM) and adaptive differential pulse code modulation (ADPCM) standards
- Linear prediction (LP) and use of the linear predictive coding (LPC) model
- Vector quantization and its applications in speech coding
- Case studies of practical speech coders from ITU and others
- The Internet low-bit-rate coder (ILBC)

Developed from the authors' combined teachings, this book also illustrates its contents by providing a real-time implementation of a speech coder on a digital signal processing chip. With its balance of theory and practical coverage, it is ideal for senior-level undergraduate and graduate students in electrical and computer engineering. It is also suitable for engineers and researchers designing or using speech coding systems in their work.

From reader reviews:

James Helm:

This book entitled Principles of Speech Coding to be one of several books that best seller in this year, here is because when you read this publication you can get a lot of benefit onto it. You will easily to buy that book in the book store or you can order it by using online. The publisher with this book sells the e-book too. It makes you more easily to read this book, since you can read this book in your Cell phone. So there is no reason to you personally to past this reserve from your list.

Tammy Robinson:

Playing with family inside a park, coming to see the coastal world or hanging out with close friends is thing that usually you may have done when you have spare time, subsequently why you don't try issue that really opposite from that. A single activity that make you not sensation tired but still relaxing, trilling like on roller coaster you have been ride on and with addition associated with. Even you love Principles of Speech Coding, you could enjoy both. It is good combination right, you still desire to miss it? What kind of hang-out type is it? Oh seriously its mind hangout guys. What? Still don't understand it, oh come on its called reading friends.

Robert Jackson:

As we know that book is vital thing to add our expertise for everything. By a guide we can know everything we want. A book is a group of written, printed, illustrated as well as blank sheet. Every year had been exactly added. This reserve Principles of Speech Coding was filled about science. Spend your time to add your knowledge about your science competence. Some people has distinct feel when they reading some sort of book. If you know how big selling point of a book, you can truly feel enjoy to read a book. In the modern era like at this point, many ways to get book you wanted.

Raymond Augustus:

Some people said that they feel uninterested when they reading a publication. They are directly felt it when they get a half regions of the book. You can choose the particular book Principles of Speech Coding to make your reading is interesting. Your own skill of reading skill is developing when you such as reading. Try to choose simple book to make you enjoy you just read it and mingle the opinion about book and reading through especially. It is to be 1st opinion for you to like to start a book and learn it. Beside that the book Principles of Speech Coding can be your friend when you're really feel alone and confuse in doing what must you're doing of this time.
