## **Interior Design and Decoration (5th Edition)** Sherrill Whiton, Stanley Abercrombie

The classic presentation of interior design and decoration has been revised and updated for the new millennium...Wide in scope and rich in detail, this book offers a unified treatment of interior design and the fine arts histories. Integrating information about materials and techniques with history, the text has been updated to include the developments in technology, interior design, and safety standards of the late twentieth century. Maps and timelines, special topic boxes, and chapter summaries help students to navigate through the wealth of material, and extensive color illustrations as well as Gilbert Werle's classic black and white drawings add visual clarity, and excitement. Each chapter begins with some consideration of various design determinants, a chronology of key periods, dynasties, rulers, and events. There is a review of artistic accomplishments, and the common characteristics of the period are summarized. Discussions of character, quality, and cross-cultural comparison provide a basis for a challenging engagement with all of the elements of interior design.
