Renewing our Libraries: Case Studies in Re-planning and Refurbishment Michael Dewe

With the wish to heighten their profile, modernize their environment and increase use, libraries in the UK have refurbished and, where necessary and possible, extended their existing buildings. Although much has been achieved in this regard across the UK, more continues and needs to be accomplished.

The case-studies in this book provide librarians, architects and others with examples of what has been undertaken and highlight the policies, processes, design issues – and the problems that have been overcome – leading to successful library refurbishments. While the case studies are mainly drawn from the UK and cover a variety of library types, the book has wider international appeal and includes case studies drawn from Ireland, Sweden and the USA.
