## **Project 17** Laurie Faria Stolarz

High atop Hathorne Hill, near Boston, sits Danvers State Hospital. Built in 1878 and closed in 1992, this abandoned mental institution is rumored to be the birthplace of the lobotomy. On the eve of the hospital's demolition, six teens break in to spend the night and film a movie about their experiences. For Derik, it's an opportunity to win a filmmaking contest and save himself from a future of flipping burgers at his parents' diner. For the others, it's a chance to be on TV, or a night with no parents. But what starts as a dare quickly escalates into a nightmare.
