Fire and Stone #3 (Aliens) Chris Roberson

"With their numbers dwindling and hopes for rescue fading, the desperate survivors on the strange planet known as LV-223 fight among themselves. A lone scientist may hold the key to their freedom, though if everyone can live long enough to hear him out! Ties in with the Prometheus and Aliens films! * From critically acclaimed writer Chris Roberson! ""Part of the strength of these franchises and what keeps us coming back for more is how enigmatic the creatures are. I think I want all the answers, but I'm not sure that is what I really want. Time will tell I suppose, meanwhile I am absolutely loving this series.Â•Bloody Disgusting Each creative team has also made sure that they've added something new to the proceedings, preventing things from feeling forced or re-hashed. I'm honestly finding it difficult to remain impartial and find things to criticise about these comics, such is the quality of what I'm readingÂ! Aliens: Fire and Stone loses none of its innate sense of 'haunted house' horror along the way. Highly, highly recommended.Â• - Big Comic Page "
