Manual Medicine 1984: Results of the International Seminar Week in Fischingen, Switzerland

Commissioned by the Swiss Federation of Manual Medicine and under the patronage of FIMM (International Federation of Manual Medicine) we conducted an international seminar during the week following the 7th International Congress of FIMM (Zuerich/Switzerland - September 1983). Thirty Manual Medicine experts had come together in the education center of the Cloister Fischingen secluded in the eastern part of Switzerland and away from any city life, to discuss in a week long seminar the status of Manual Medicine. Working together in the form of several groups, the following points were emphasized: - terminology - diagnostic criteria (are Manual Medicine findings reproducible?) - therapeutic interventions (degree of congruity of treatment plans) The participants demonstrated great enthusiasm and commitment, and so it was possible to have the content of the individual group's discussion communicated to and presented for further scrutiny to all participants during the seminar week. As members of the organizing committee and as the editors of this publication, we hope to help establish a more standardized international terminology concerning the field of Manual Medicine. As this clinical trial (investigating the diagnostic reliability and the therapeutic efficiency of MM) shows, factors such as terminology, diagnostic criteria and therapeutic plans are a prerequisite for multi-center studies.

And so there are a lot of benefits that you will get when you buy this book.

Steven Miller:

As a university student exactly feel bored in order to reading. If their teacher expected them to go to the library in order to make summary for some publication, they are complained. Just small students that has reading's spirit or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to generally there but nothing reading seriously. Any students feel that looking at is not important, boring and also can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this Manual Medicine 1984: Results of the International Seminar Week in Fischingen, Switzerland can make you feel more interested to read.
