## Remote Sensing of Urban and Suburban Areas: 10 (Remote Sensing and Digital Image Processing)

"Remote Sensing of Urban and Suburban Areas" provides instructors with a text reference that has a logical and easy-to-follow flow of topics around which they can structure the syllabi of their urban remote sensing courses. Topics have been chosen to bridge the gap between remote sensing and urban studies through a better understanding of the science that underlies both fields. In so doing, the book includes 17 chapters written by leading international experts in respected fields to provide a balanced coverage of fundamental issues in both remote sensing and urban studies. Emphasis is placed on: theoretical and practical issues in contemporary urban studies and remote sensing; the spectral, spatial and temporal requirements of remotely sensed data in relation to various urban phenomena; methods and techniques for analyzing and integrating remotely sensed data and image processing with geographic information systems to address urban problems; and examples of applications in which applying remote sensing to tackle urban problems is deemed useful and important.

### **From reader reviews:**

#### **Maria Macdonald:**

The book Remote Sensing of Urban and Suburban Areas: 10 (Remote Sensing and Digital Image Processing) can give more knowledge and also the precise product information about everything you want. Why must we leave a very important thing like a book Remote Sensing of Urban and Suburban Areas: 10 (Remote Sensing and Digital Image Processing)? Some of you have a different opinion about publication. But one aim in which book can give many data for us. It is absolutely suitable. Right now, try to closer with the book. Knowledge or facts that you take for that, you are able to give for each other; you are able to share all of these. Book Remote Sensing of Urban and Suburban Areas: 10 (Remote Sensing and Digital Image Processing) has simple shape however you know: it has great and big function for you. You can appear the enormous world by open and read a reserve. So it is very wonderful.

#### **Jean Gaitan:**

As people who live in the particular modest era should be revise about what going on or details even knowledge to make these people keep up with the era which is always change and progress. Some of you maybe will update themselves by examining books. It is a good choice in your case but the problems coming to anyone is you don't know what type you should start with. This Remote Sensing of Urban and Suburban Areas: 10 (Remote Sensing and Digital Image Processing) is our recommendation to help you keep up with the world. Why, as this book serves what you want and want in this era.

#### **Doug Martin:**

Spent a free a chance to be fun activity to perform! A lot of people spent their spare time with their family, or their very own friends.
