**In this conclusion to The Star Shards Chronicles, powerful and terrifying invaders have arrived from a parallel dimension, and only the Star Shards can prevent the destruction of the human race.**

Six children were conceived at the exact moment that the star Mentaras-H went supernova, and the explosion transformed their souls into living star fragments. Now the Star Shards face the ultimate battle—and the true purpose of their gifts be revealed, for it is no accident they have these powers. Once despised for their “deformities,” the Star Shards are now worshiped and feared as gods. Their power is unlimited, as is the temptation to abuse it. But a new and terrifying force has torn a wound in the universe, infecting it like a deadly, intelligent virus. Only one power exists that could conceivably prevent the extermination of the human race: the Star Shards. But only if they can put aside their titanic egos and join forces one final time.

Acclaimed author Neal Shusterman’s “talent for depicting superhuman characters with human strengths and weaknesses lends depth and immediacy to a tale of cosmic proportions” (*School Library Journal*) in this stunning conclusion to a visionary trilogy.
