Improving Health and Education Service Delivery in India through Public-Private Partnerships (Ppp Knowledge) Anouj Mehta, Aparna Bhatia, Ameeta Chatterjee

Public-private partnerships (PPPs) have shown their ability to meet some of the challenges in the health and education sectors both in India and overseas. The Asian Development Bank (ADB) has been assisting the Government of India since 2006 to develop PPPs across sectors in India, through a programmatic joint PPP Initiative, Mainstreaming PPPs in India. Under the initiative, a special task team of the ADB, together with the Government of India's Ministry of Finance and KPMG consultants undertook a rapid assessment study to develop possible PPP solutions for meeting the challenges of India's health and education sectors.

Assessments of local PPP projects in the sector, consultations with state government officials in India, and best practice examples from the United Kingdom and other countries, have led to the development of this report. This report will therefore provide a quick guide to international and national PPP cases in the sectors as well as practical ideas and suggested models to interested project sponsors, especially within government bodies responsible for sector development. Development of possible PPP projects based on some of the models and ideas suggested herewith will hopefully spur investment and efficiency gains in health and education infrastructure and service delivery mechanisms of the country.
