Ohio States: A Twentieth-Century Midwestern Jeffrey Hammond

"The relative merits of the future and the past became a running theme with my brother and me. By now I had become a reader, something he definitely was not, and had developed an interest in things like ancient history, the Bible, and old-time baseball" all of which, he observed, would get me a cup of coffee provided I also had the requisite fifteen cents. Dave often bragged that he had read only two books cover to cover: *Donald Duck Sees South America* and *The Building of the Transcontinental Railroad*. I knew that was a lie, though, because our room contained a third book, a well-thumbed copy of Isaac Asimov's *I, Robot*. Dave was too busy finding things out for himself to read books about made-up stories or "history." I knew he was right. We would all have to live in the future, and if I didn't get with it I'd get left behind." "From "Science Boy"
