## Stem Cells and Cancer Stem Cells, Volume 10: Therapeutic Applications in Disease and Injury

Presenting contributions by 66 experts representing 13 countries, Volume 10 of the series Stem Cells and Cancer Stem Cells synthesizes current understanding of the causes, diagnosis, and therapy of major human diseases and debilitating tissue and organ injuries, using cell-based treatment. This volume presents contemporary research into generation, preservation, and uses of stem cells in fighting disease and tissue/organ injuries.

The contents of the volume are organized into five sections. Mesenchymal Stem Cells section includes chapters on the use of stem cells in bone regeneration, studies and trials of stem cells in autoimmune diseases, and differences between adipose tissue-derived mesenchymal stem cells and bone marrow-derived mesenchymal stem cells as regulators of immune response. Induced Pluripotent Stem Cells section offers chapters on drug discovery using human iPSC-based disease models, and on generation of antigen-specific lymphocytes from iPSCs. Neural Cells and Neural Stem Cells section discusses use of bacterial artificial chromosomes in the genetic identification of stem cell-derived neural cell types, and use of moderate low temperature to preserve the stemness of neural stem cells. The section, Role of Stem Cells in Disease, discusses stem cell support in high-dose chemotherapy of Non-Hodgkin's Lymphomas; potential targets for drug resistant leukemic stem cells, bone marrow stem cell therapies for diabetes mellitus. This section also discusses the use of stem cells in treating thyroid, breast and bone cancers, hemophilia and Parkinson's Disease. The section, Stem Cell Transplantation, includes chapters on reducing fungal infection in allogeneic stem cell transplantation patients, use of Busulfan/Fludarabine for conditioning in haematopoietic stem cell transplantation, and interleukin-7 receptor alpha polymorphisms in allogeneic stem cell transplantation.

The editor, M.A. Hayat, is a Distinguished Professor in the Department of Biological, Sciences at Kean University, Union, New Jersey, USA.

### **From reader reviews:**

#### **Charlie Attwood:**

Book will be written, printed, or descriptive for everything. You can recognize everything you want by a reserve. Book has a different type. We all know that that book is important factor to bring us around the world. Adjacent to that you can your reading expertise was fluently. A book Stem Cells and Cancer Stem Cells, Volume 10: Therapeutic Applications in Disease and Injury will make you to always be smarter. You can feel considerably more confidence if you can know about every little thing. But some of you think that will open or reading a new book make you bored. It's not make you fun. Why they are often thought like that? Have you looking for best book or suited book with you?

#### **Dena Ramirez:**

Your reading 6th sense will not betray an individual, why because this Stem Cells and Cancer Stem Cells, Volume 10: Therapeutic Applications in Disease and Injury reserve written by well-known writer whose to say well how to make book which can be understand by anyone who have read the book. Written in good manner for you, dripping every ideas and writing skill only for eliminate your own hunger then you still skepticism Stem Cells and Cancer Stem Cells, Volume 10: Therapeutic Applications in Disease and Injury as good book but not only by the cover but also with the content. This is one publication that can break don't assess book by its include, so do you still needing a different sixth sense to pick this!?! Oh come on your looking at sixth sense already told you so why you have to listening to a different sixth sense.

#### **Ronald Marinelli:**

In this period globalization it is important to someone to receive information. The information will make someone to understand the condition of the world. The condition of the world makes the information simpler to share. You can find a lot of references to get information example: internet, paper, book, and soon. You can observe that now, a lot of publisher that will print many kinds of book. Typically the book that recommended for you is Stem Cells and Cancer Stem Cells, Volume 10: Therapeutic Applications in Disease and Injury this e-book consist a lot of the information in the condition of this world now. This book was represented just how can the world has grown up. The dialect styles that writer use to explain it is easy to understand. The actual writer made some study when he makes this book. Honestly, that is why this book ideal all of you.

#### **Jeri McKeen:**

That e-book can make you to feel relax. This particular book Stem Cells and Cancer Stem Cells, Volume 10: Therapeutic Applications in Disease and Injury was vibrant and of course has pictures on the website. As we know that book Stem Cells and Cancer Stem Cells, Volume 10: Therapeutic Applications in Disease and Injury has many kinds or style. Start from kids until young adults. For example Naruto or Detective Conan you can read and feel that you are the character on there. Therefore , not at all of book are generally make

you bored, any it makes you feel happy, fun and rest. Try to choose the best book for yourself and try to like reading which.
