The Technology of Study

Overfilled class-sizes, economic disadvantages and "learning disorders" are common. Yet underlying all of this, there are three primary barriers that keep one from successfully studying a subject.

This is not attention deficit disorder, emotional problems, or stupidity at work. Students fail to learn because no one has ever taught them how to learn — how to identify the barriers to learning and how to overcome them.

The study method in this booklet helps *anyone* learn *anything* and has proven to achieve uniform, consistent results wherever it has been applied. Mr. Hubbard's study techniques have proven as effective in the elementary school as they have in the executive suites of multinational corporations. They provide an understanding of the basics of learning and supply exact ways to overcome all the pitfalls one can encounter during study.

Study Technology enables one to comprehend a studied subject so one can then apply it.

With this technology, you can learn any subject, and so can anyone else.

Learn the secret to studying any subject and applying it successfully in your life. Get the Technology of Study today.
