Earth Observation of Ecosystem Services (Earth Observation of Global Changes)

Earth Observation of Ecosystem Services (Earth Observation of Global Changes)

A balanced review of differing approaches based on remote sensing tools and methods to assess and monitor biodiversity, carbon and water cycles, and the energy balance of terrestrial ecosystem. **Earth Observation of Ecosystem Services** highlights the advantages Earth observation technologies offer for quantifying and monitoring multiple ecosystem functions and services. It provides a multidisciplinary reference that expressly covers the use of remote sensing for quantifying and monitoring multiple ecosystem services.

Rather than exhaustively cover all possible ecosystem services, this book takes a global look at the most relevant remote sensing approaches to estimate key ecosystem services from satellite data. Structured in four main sections, it covers carbon cycle, biodiversity, water cycle, and energy balance. Each section contains a review of conceptual and empirical methods, techniques, and case studies linking remotely sensed data to the biophysical variables and ecosystem functions associated with key ecosystem services.

The book identifies relevant issues and challenges of assessment, presents cutting-edge sensing techniques, uses globally implemented tools to quantify ecosystem functions, and presents examples of successful monitoring programs. Covering recent developments undertaken on the global and national stage from Earth observation satellite data, it includes valuable lessons and recommendations and novel ways to improve current global monitoring systems. The book delineates the use of Earth observation data so that it can be used to quantify, map, value, and manage the valuable goods and services that ecosystems provide to societies around the world.

From reader reviews:

Christopher Clarke:

In this 21st millennium, people become competitive in each way. By being competitive currently, people have to do something to make these people survive, being in the middle of the particular crowded place and notice by simply surrounding. One thing that sometimes many people have underestimated that for a while is reading. Sure, by reading a publication your ability to survive increases then having a chance to stand up than other is high. To suit your needs who want to start reading a new book, we give you this particular Earth Observation of Ecosystem Services (Earth Observation of Global Changes) book as a beginner and daily reading publication. Why, because this book is more than just a book.

Christina Love:

The knowledge that you get from Earth Observation of Ecosystem Services (Earth Observation of Global Changes) is the more deep you look for the information that hides inside the words the more you get considering reading it. It doesn't mean that this book is hard to be aware of but Earth Observation of Ecosystem Services (Earth Observation of Global Changes) gives you a thrill feeling of reading. The writer conveys their point in a specific way that can be understood simply by anyone who reads it because the author of this publication is well-known enough. This kind of book also makes your own vocabulary increase well. Therefore it is easy to understand then can go to you, both in printed or e-book style are available. We suggest you for having this particular Earth Observation of Ecosystem Services (Earth Observation of Global Changes) instantly.

Sondra Spencer:

Spent a free the perfect time to be a fun activity to perform! A lot of people spend their leisure time with their family, or their particular friends. Usually they do activity like watching television, likely to beach, or picnic inside park. They actually do the same thing every week. Do you feel it? Would you like to do something different to fill your free time/ holiday? Could be reading a book can be an option to fill your no cost time/ holiday. The first thing that you'll ask may be what kinds of reserve that you should read. If you want to test look for a book, maybe the guide titled Earth Observation of Ecosystem Services (Earth Observation of Global Changes) can be an excellent book to read. Maybe it could be the best activity to you.

Michael Brown:

You can get this Earth Observation of Ecosystem Services (Earth Observation of Global Changes) by going to the bookstore or Mall. Simply viewing or reviewing it may be your solve trouble if you get difficulties for your knowledge. Kinds of this e-book are various. Not only by simply written or printed but can you enjoy this book by means of e-book. In the modern era such as now, you just look for your mobile phone and searching what their problem. Right now, choose your personal ways to get more information about your reserve. It is most important to arrange you to ultimately make your knowledge are still upgrade. Let's try to

choose appropriate ways for you.
