On Call Radiology

Gareth Lewis, Sachin Modi, Hiten Patel, Shahid Hussain

On Call Radiology Gareth Lewis, Sachin Modi, Hiten Patel, Shahid Hussain

On-Call Radiology presents case discussions on the most common and important clinical emergencies and their corresponding imaging findings encountered on-call. Cases are divided into thoracic, gastrointestinal and genitourinary, neurological and non-traumatic spinal, paediatric, trauma, interventional and vascular imaging. Iatrogenic complications are also discussed.

Each case is presented as a realistic clinical scenario and includes a clinical history and request for imaging. Multi-modality imaging examples and a case discussion on the diagnosis and basic management, with emphasis on important radiological findings, are also presented.

This book combines a case-based discussion format with practical advice on imaging decision making in the acute setting. It also offers guidance on radiology report writing and techniques, with a focus on relevant positive and negative findings to pass on to referring clinicians. **On-call Radiology** offers invaluable knowledge and practical tips for any on-call radiologist.
