Google App Engine: Construindo serviços na nuvem (Portuguese Edition) Paulo Siécola

O Google App Engine é uma plataforma de computação em nuvem que permite a execução de aplicações Web na infraestrutura do Google. Tudo isso de forma fácil e escalável, com várias opções de utilização gratuitas e sem a necessidade de manutenção em sistemas operacionais ou servidores.

Neste livro, Paulo Siécola aborda os aspectos dessa plataforma, principalmente aqueles relativos ao desenvolvimento de aplicações em Java para interagir com seus recursos, e também a administração deles através das ferramentas disponibilizadas pelo Google App Engine, ou GAE, como é comumente chamado.
